FACTORY AND PRODUCTION FACILITIES

BLUE SKY (China) Nanjing Blue Sky Filter Co.,Ltd.

Company Profile

Nanjing Blue Sky Filter Co.,Ltd. began to expand the filter products to the worldwide market in the year of 2002. Nanjing Blue Sky is an ISO9001 and ISO14001 certified manufacturer with over 16 years experiences in a complete range of air filtering products , including the series of air filters & filter bags for household appliances, commercial appliances, industry machines, automobiles and special medical appliances etc.

Our company can produce various filteration products according to the clients/ customers' exact specifications and requirements. Our products accord with ROHS standards to be safe and environment friendly.

Our company has the modern standard workshops, the advanced producing facilities, the reasonable designed production lines, the strict quality control and management system to guarantee the clients / customers get the premium products and service. All our HEPA filters are produced in the strictly cleaning workshop. And we have the completed and advanced test labs to guarantee the high efficiency filters' performance.

With the excellent teams of highly trained and qualified engineers and marketing & customer service persons, our company is able to provide filtering products and designs and integration services to the clients / customers around the world.

We are confident to work with you to create competitive advantage with our producing ability and experiences in China, Meanwhile, our professional export and logistics experiences can deliver the goods to the customer's appointed location in the world.

Feel welcome to review our product range and contact us!
